28. Description of Change: (use additional Sheets if necessary) Many of the steps in this test procedure are redundant with tests in the "8.1.4.2 Recovery from Abnormal Non-Catastrophic Shutdown" (B080140.020) series. It is proposed that we combine the steps in this test with the B080140.020 series, and remove the B080140.010 series from the Verification Database. It is also proposed that we remove the linkages to Features in the Verification Database at the same time.						
29. Proposed Solution: (use additional sheets if necessary) Combine the steps in this test with the B080140.020 series, and remove the B080140.010 series from the Verification Database along with their linkages to Features in accordance with the following attached tables: Table 1 - Test Case Deletion & Feature Linkage Deletion Summary (for reference only) Table 2 - Delete Test Cases Table 3 - Delete Test Case to Feature Linkage
